

## QUICK REFERENCE GUIDE

### The Alastin Skincare Advantage

Our products are based on proprietary science designed to enhance the procedural experience.

**STIMULATES** key healing and regenerating processes to optimize pre-procedure skin receptivity

**STRENGTHENS** fragile, compromised skin immediately following the procedure and reduces recovery time by minimizing inflammation, redness and irritation

**SUPPORTS** the healing, recovery and rejuvenation process resulting in a better overall outcome

We are proud to offer products that are paraben free, gluten free, and cruelty free.

### Alastin Skin Nectar™

Alastin Skin Nectar with TriHex Technology™ is a proprietary formulation designed to support the skin before, during, and after cosmetic procedures.

#### Key Benefits

- Increases natural levels of elastin in the skin
- Improves the quality of existing elastin
- Stimulates increase in collagen production
- High antioxidant activity to reduce inflammation, redness and irritation

#### Key Ingredients

- **TriHex Technology** - stimulates elastin and collagen synthesis, aids in accelerated recovery
- **Naringenin with Panthenyl Triacetate** - citrus/vitamin B derivative, antioxidant, anti-inflammatory
- **Arnica Montana Extract** - modulates inflammation and reduces bruising potential
- **Phytoene and Phytofluene** - potent antioxidants, extracted from saltwater micro-algae, regulates inflammation by modulating PGE-2

### Occlusive Moisturizer

Alastin's Occlusive Moisturizer is a highly effective ointment formulated to work with the body's own rejuvenation processes, to support the regeneration and recovery of skin after a cosmetic procedure.

#### Key Benefits

- Quickly calms and soothes the skin
- Creates an occlusive barrier to protect compromised skin
- Non-greasy finish ideal for all skin types
- Hydrates dry skin and helps restore the skin's moisture balance

#### Key Ingredients

- **Physalis Angulata Extract** - natural plant extract that decreases inflammation
- **Bisabolol** - antioxidant, anti-inflammatory, capable of interfering with production of free radicals
- **Shea Butter Triterpenes** - extracted from Shea Butter, reduces inflammation while protecting irritated, post procedure skin

## Alastin Gentle Cleanser

Gentle, self-foaming cleanser that removes impurities without drying or irritating the skin. A unique blend of moisturizers and vitamins designed to clean, soothe and soften the skin without upsetting the skin's delicate moisture balance.

### Key Benefits

- Softens, soothes, and moisturizes skin
- Thoroughly removes environmental pollutants and make-up
- Excellent for use post-procedure or on sensitive skin
- Sulfate-free

### Key Ingredients

- D-Panthenol - vitamin B5 derivative, softens, soothes, moisturizes
- Oat Beta Glucan - anti-irritant
- Bisabolol - antioxidant, anti-inflammatory, capable of interfering with production of free radicals
- Oat Kernel Extract - soothing, anti-inflammatory

## Moisturizer

A ceramide rich, hydrating moisturizer containing exclusive moisture building ingredients, powerful antioxidants and skin soothers that help promote and maintain the barrier function of the skin.

### Key Benefits

- Ceramides help to restore barrier function
- Niacinimide and Hyaluronic Acid improve moisture balance in the skin
- Collagen is boosted with stem cell activating ingredients
- Inhibits free radicals

### Key Ingredients

- Niacinamide - improves elasticity, moisturization and helps fortify skin's natural barrier function
- Pea Peptone - upregulates endogeneous growth factors, VEGF and TGFb1
- Ceramide NP, Phytosterols - Helps rebuild skin's moisture barrier and enhances skin texture and elasticity
- Xylityl Glucoside, Anhydroxylitol, Xylitol - increases channeling of water to skin, stimulates ceramide 1 & 2

## Broad Spectrum SPF 30+ Sunscreen

An elegant, moisturizing 80 minute water resistant sunscreen that is formulated with effective hydrators and antioxidants.

### Key Benefits

- Broad Spectrum UVA/UVB sun protection
- Ideal for use post-procedure
- Helps prevent against free radical damage
- Non-comedogenic

### Key Ingredients

- Zinc Oxide 10%
- Octinoxate 7.5%
- Tetrahexyldecyl Ascorbate - stable, highly substantial form of pro-vitamin C
- Green Tea Extract, Cucumber and Aloe Leaf Extract - antioxidant and anti-inflammatory activity
